

GAS-88

Gas Leakage Detector (Wireless)

GAS-88D

Gas Leakage Detector (Independent)

GAS-88L

Gas Leakage Detector (Wired)

- Induced gas: natural gas / LPG
- Alarm density: 10% LEL
- MCU processing, energy-saving
- Auto reset when density returns to normal
- Sound: 75dB/m
- Power supply: AC 110V-240V/DC 12V
- Detection range: 20m²
- Transmit distance: ≤100m (open area)

Specifications

Voltage	DC 12V or AC 110-240V 50 / 60Hz		
Standby current	≤30mA		
Alarm current	≤120mA		
Power rating	≤3W		
Alarm density	10% LEL		
Alarm density difference	± 5% LEL		
Alarm sound	≥75dB/m		
Operating temperature	-10°C ~+55°C	Relative humidity	≤90% RH
Type of alarm	Voice & strobe light alarm, output network signal (wired signal output or wireless signal output)		
Dimension	120×70×40mm		

Package Includes

- Detector x 1
